RRL PROJECTS
RAIL & ROAD LOGISTICS

ABOUT COMPANY

RRL Russia LLC is a member of RRL Projects Group and specializes on the transportation of oversized and heavy-weight industrial equipment, machinery and project cargoes with all modes of transport from all over the world (mainly Western Europe, North and South America, South East Asia) to Russia and CIS countries.

SERVICES

Transportation of project cargo worldwide to Russia and CIS

Multimodal transportation of oversized and heavy-lift cargoes with all modes of shipment

Transportation of construction machinery and equipment

Delivery of cargoes to the hard-to-reach job-sites with helicopters

Railway transportation of heavy cargoes using special rolling stock

Sea and river transportation of cargoes using sea-river barges and tug boats

Air carriage of standart and oversized cargoes, aircraft charter

Auto transportation of general and oversized cargoes

Crane, on- and offloading, discharge and transshipment

Survey of cargo in points of loading, discharge and transshipment

Insurance of cargo and forwarder's liability

Export and import customs clearance

SOLUTIONS FOR INDUSTRIES

We are able to provide the following complex logistic solutions for following industries:

Oil & Gas

(transportation of drilling rigs, equipment for oil processing plants, equipment for gas supply, dehydrators, oxygen plants, compressors, rectification columns, reactors and tanks, pipes)

Metallurgy

(transportation of portal cranes, hammers, press and backing rolls)

Energy

(transportation of reactors, transformers, columns, gas and steam turbines, power cables)

Agro industry

(transportation of combine harvesters, seeders, tractors, cotton harvesting equipment)

Mining

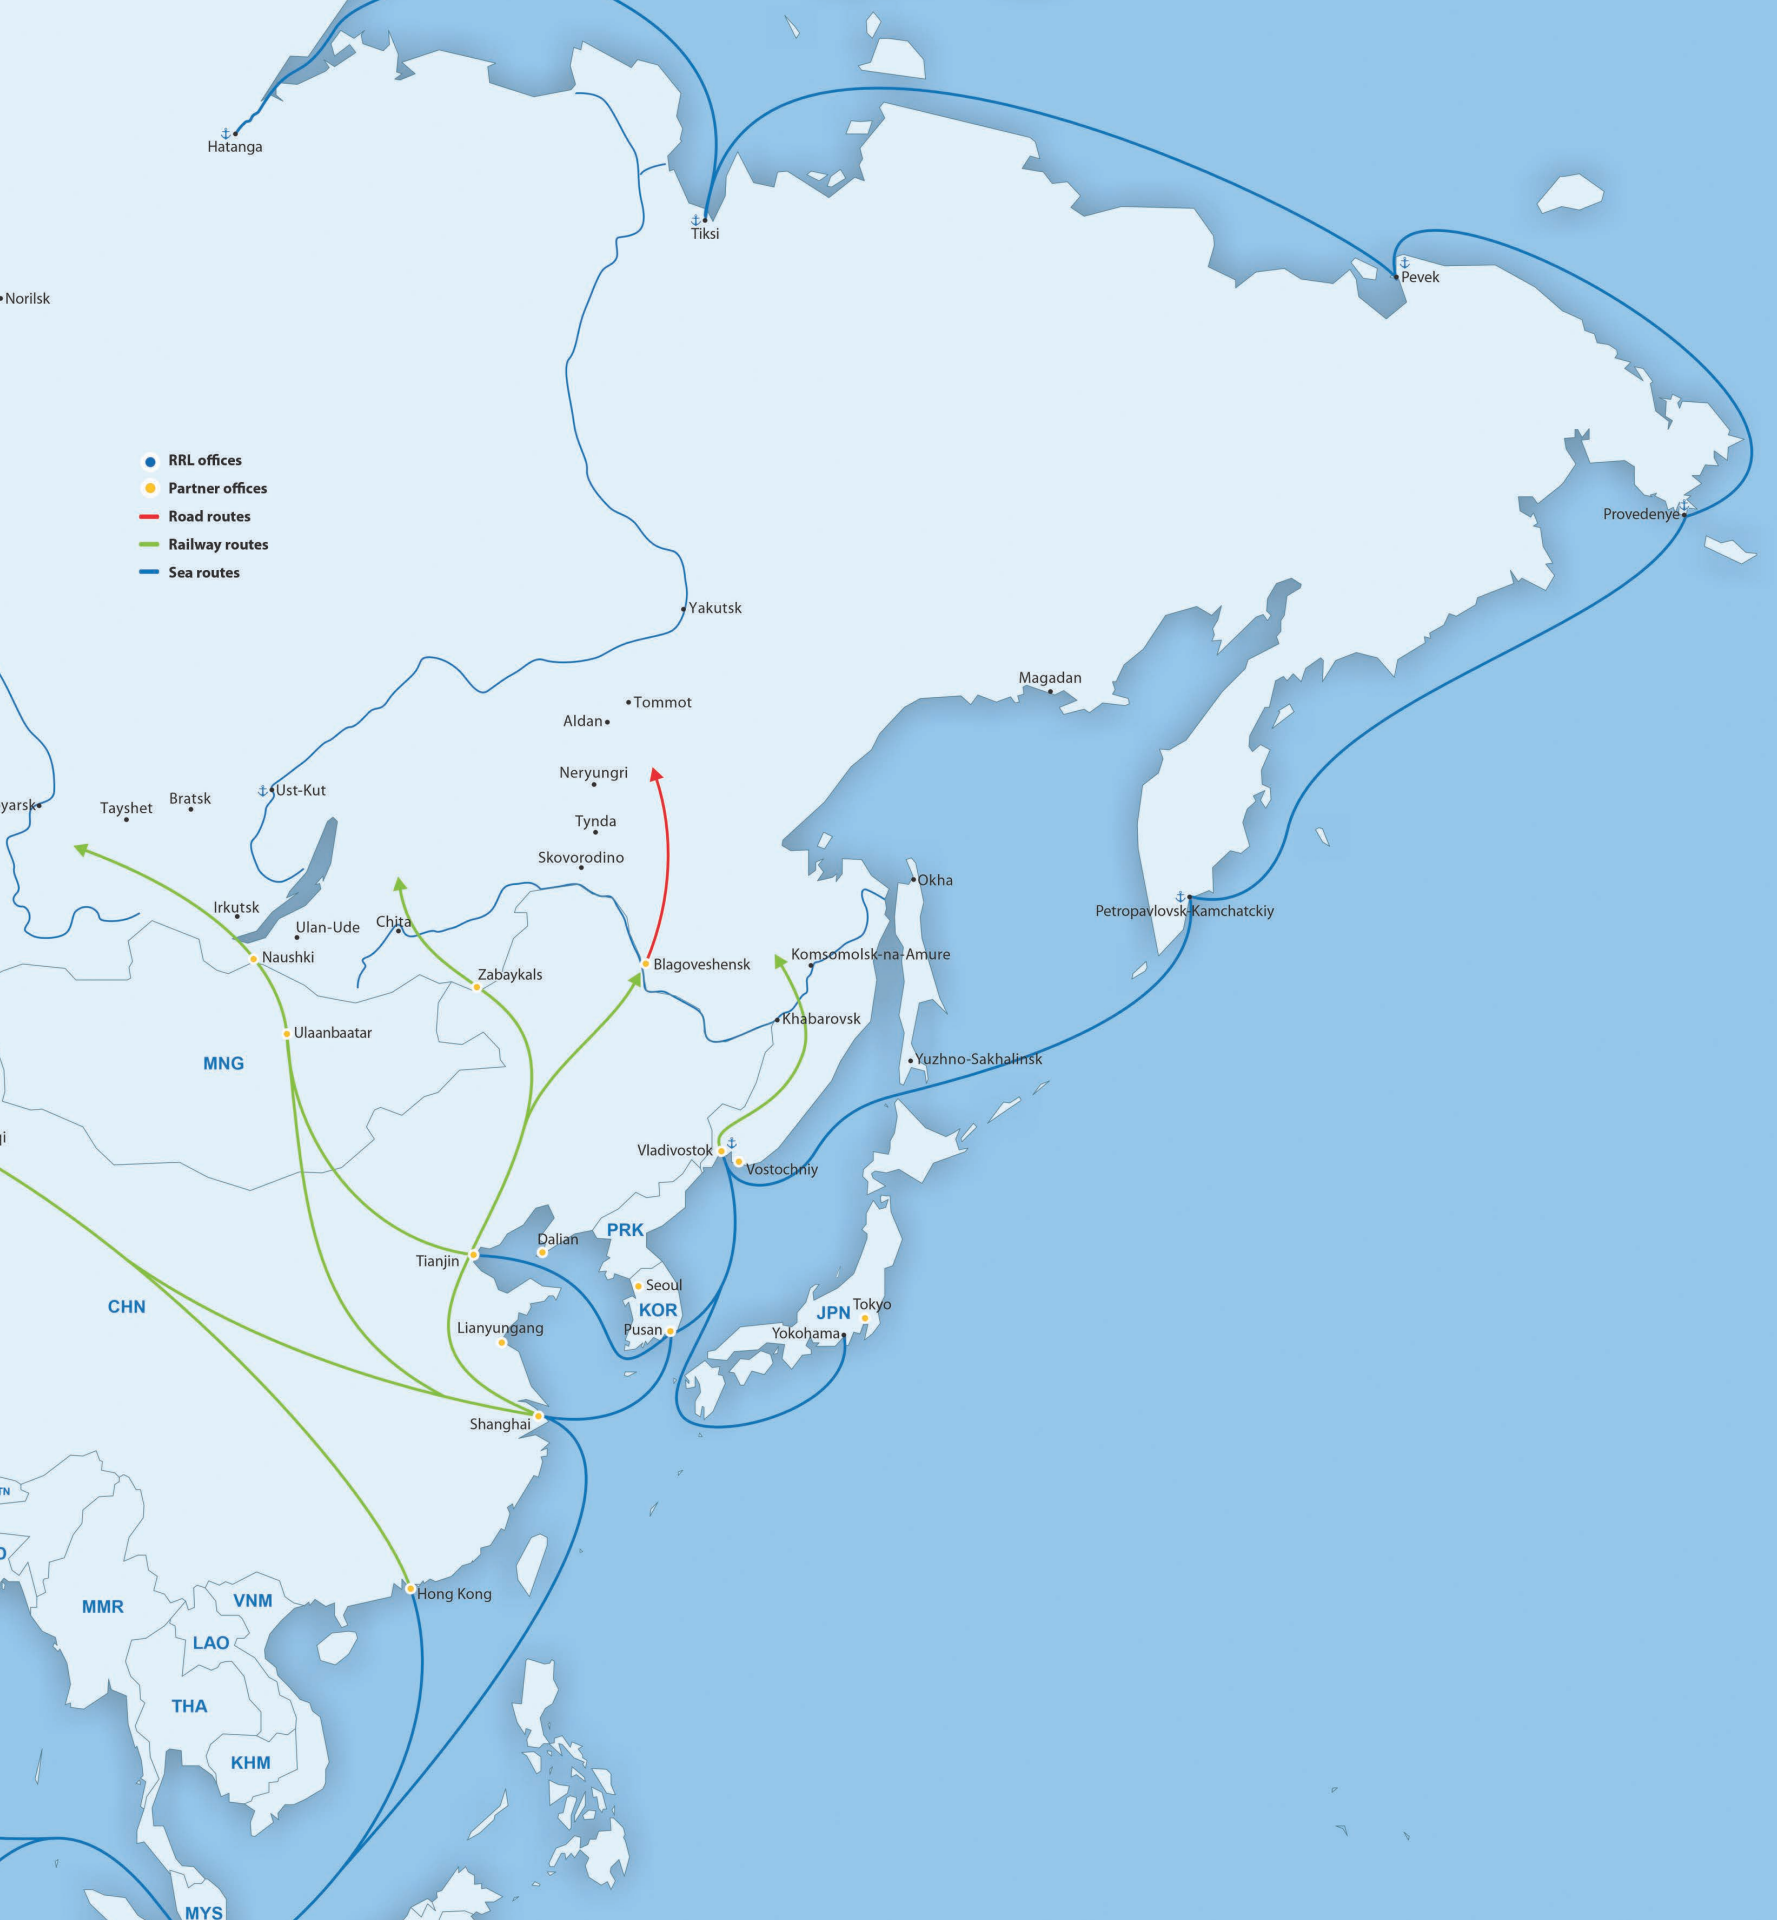

(transportation of mining excavators and dump trucks, equipment for coal extraction, mobile crusher, machinery for horizontal drilling)

Road construction

(transportation of gantry and lattice-jib cranes, asphalt-mixing plants, excavators, bulldozers, pipelayers)

Air separation unit, coldbox
